Street Address:	City:	State:    Zip:

#### Applicant Information (If different than owner or contractor)

First Name:	Last Name or Business Name:	Phone Number:	
Mailing Address:		City:	State:    Zip:

#### Application Requirements

Pa UCC Section 403.42 (commercial) and 403.62 (residential) requires that demolition permits be obtained prior to the demolition of any existing building or structure. This permit is separate from that required for construction, alteration or renovations of existing buildings.

**Note:** When a demolition will occur and plans for a replacement building or structure are submitted concurrently, an application for a demolition permit is not required to be submitted. If the demolition is not accompanied by a building permit application for a replacement building or structure, an application for a demolition permit will be required.

The receipt of a demolition permit issued by the City of Warren Building Code Department does not relieve the permit holder of compliance responsibilities under other state or federal laws and regulations, including **but not limited to:** asbestos remediation, advanced notification to the PA Department of

Environmental Protection and the US Environmental Protection Agency of demolition work, historic preservation, disconnection of utilities and the capping of any sewer and water connections.

Any person desiring to demolish a building or structure must:

- Submit a fully completed **APPLICATION FOR DEMOLITION PERMIT**. Incomplete applications will not be accepted.
- Provide proof of Workers' Compensation.
- **Provide two (2) copies of a site plan** detailing the information requested below.
- **Pay a demolition fee** as determined by the type of building or structure being demolished in addition to a \$4.00 PA UCC surcharge. You will be notified of the appropriate fee upon notification of approval. Checks or money orders shall be made payable to the City of Warren.

### Site Plan Requirements

Two copies of a site plan showing the proposed demolition must accompany this application. This plan must include the following:

- Size and location of all buildings or structures to be demolished, distances to property lines, any existing underground or above ground tanks and distances to sidewalks, pavement and curbs where they abut property lines.
- Utility disconnections: Service utility connections shall be disconnected and capped in accordance with the approved regulations of the authority having jurisdiction.
- Size and location of any existing buildings or structures that will remain on the site. If the proposed demolition is attached to another building or structure, include any precautions that will be taken to ensure the stability of the remaining building or structure. If any remaining walls become unprotected as a result of the demolition, show how they will be made weather-tight. Any required construction activities may require a building permit and subject to all applicable building codes.
- Area to be filled to existing grade and seeded or to be fenced and otherwise protected in anticipation of new construction. (IBC Section 3303.4)
- Water accumulation: Provisions shall be made to prevent the accumulation of water or damage to any foundations on the property or the adjoining property (IBC 3303.5)
- If applicable, location, dimensions and construction details for pedestrian protections required in section 3306 of the *International Building Code*.

### Owner Statement

I hereby certify that I own the property described above for which this application is made for a demolition permit and that the applicant has my approval to demolish this property or act as our agent in the demolition of this property. In addition, if a permit for work described in this application is issued, I certify that the Building Code Official or authorized representative shall have the authority to enter areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit.

**Owner Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

### Applicant Statement (If different than owner)

I hereby acknowledge that I have been authorized by the owner to make this application as his authorized agent and I agree to conform to all applicable laws of this jurisdiction. In addition, if a permit for work described in this application is issued, I certify that the Building Code Official or authorized representative shall have the authority to enter areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit.

**Applicant Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

## SITE PLAN

Show the size and location of all new construction and all existing structures on the site. Show distances from the new construction to the front, side and rear property boundaries. This form may be used in lieu of a formal site plan.

A large grid for a site plan. The grid consists of a fine grid of small squares and a coarser grid of larger squares. The larger squares are defined by dashed lines, while the smaller squares are defined by dotted lines. At the bottom of the grid, there is a solid horizontal line representing a street. Below this line, the word "STREET" is written in capital letters.

STREET

# WORKERS' COMPENSATION INSURANCE COVERAGE INFORMATION FORM

Additional copies available upon request

- A. Is the applicant a contractor within the meaning of the Pennsylvania Workers' Compensation Law?  Yes  No
