

**RESOLUTION
NO. 3072**

**A RESOLUTION OF THE CITY OF WARREN, WARREN COUNTY, PENNSYLVANIA
ESTABLISHING FEES FOR BUILDING CODES PERMIT APPLICATIONS
AND INSPECTIONS AND POLICIES RELATED TO THE COLLECTION
OF SUCH FEES AND THEIR REFUND WITH SUCH FEES AND POLICIES
BEING APPLICABLE TO PROPERTIES WITHIN THE CITY OF WARREN**

WHEREAS, the City Council of the City of Warren may, from time to time, adopt resolutions setting fees and charges; and

WHEREAS, the Pennsylvania Uniform Construction Code (UCC) provides that municipalities adopting the UCC may establish a fee schedule for services provided in conjunction with its administration and enforcement, a schedule for payment of such fees, and a policy for their refund; and

WHEREAS, the City of Warren desires to establish fees for such services, as well as a payment schedule and refund policy as provided for in the UCC; and

WHEREAS, the UCC mandates the collection of certain fees which are to be collected by the City and forwarded to the Pennsylvania Department of Community and Economic Development with said fees being utilized to provide ongoing training for persons who enforce the UCC.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Warren that Resolution No. 3038, dated July 17, 2017, is hereby repealed in its entirety; and

BE IT FURTHER RESOLVED that fees for Building Codes Permit Applications and Inspections for properties located within the City of Warren and policies for the collection and refund thereof are hereby established as follows:

1. DEFINITIONS

- A. **Accessory Structure:** buildings and structures that supplement the primary building on the lot including, but not limited to: carports, detached private garages, greenhouses, and sheds.

- B. **Canopy:** a permanent structure or architectural projection of rigid construction over which a covering is attached that provides weather protection, identity, or decoration. A canopy is permitted to be structurally independent or supported by attachment to a building on one or more sides.

- C. **Fixture:** each sink, wash basin, water closet, urinal, bathtub, shower, hose bib, house trap, floor drain, trap primer, roof drain or downspout, laundry tray, dishwasher, drinking fountain, hot water heater, or any opening for the aforementioned or any plumbing or drainage system, whether water-supplied or not, installed in the building or on the lot within the property lines.

- D. **Industrialized Housing:** any structure designed primarily for residential occupancy which is wholly or in substantial part made, fabricated, formed or assembled in manufacturing facilities for installation, or assembly and installation, on the building site. (Commonly referred to as "modular")

- E. **Living Area:** the habitable space within a structure which is used for daily living activities including, but not limited to kitchen, dining room, living room, family room, bathrooms, closets, bedrooms, mud room, entry room, and laundry/utility room.

- F. **Manufactured Housing:** a structure, transportable in one or more sections, which, in the traveling mode, is eight body feet or more in width, or forty body feet or more in length, or, when erected on site, is 320 or more square feet and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities and includes the plumbing, heating, air conditioning and electrical systems contained therein. The term shall include any structure which meets all the requirements of this paragraph except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the United States Department of Housing and Urban Development and complies with the standards established under P.L. 676, No. 192 (as may be amended from time to time) and bears a label certifying that it conforms to the Federal Construction and Safety Standards adopted under the Housing and Community Development Act of 1974.

- G. **Outlet:** any receptacle, switch, lighting junction box, ceiling fan, thermostat, emergency lighting, exit lighting, and the like.

- H. **Temporary membrane structure:** a non-pressurized building wherein the structure is composed of a rigid framework to support a tensioned membrane which provides a weather barrier

- I. **Tent:** a structure, enclosure, or shelter, with or without sidewalls or drops; constructed of fabric or pliable material supported in any manner except by air or the contents it protects
